SUMMARY OF COMMUNICATION

At the 12-15-82 Mtg. w/ Reid Supply where we discussed Part B requirements I told Dave Trombold that you would give him a call & discuss the fin. requirements. They have interim status & we have a called a Part B from them - the Part B is due in March, '83. Since they have not had to meet the requirements he does not have any idea as to what mechanisms would be best for him to use. They have a storage facility. You will need to discuss both closure mechanisms & liability insurance.
